<b>Mia Su-Ling Gregerson</b>	<b>Candidate for State Representative, District 33, Position 2 (Seahurst)</b>
In Washington, 1 in 6 children experience food insecurity. What steps or legislative actions would you take to address child poverty and hunger?	I will support systems and system changes that directly addresses anti-poverty, anti-hunger and anti-racist efforts.
If elected, in what areas would you support making investments to overcome racial inequities?	I will continue to work to make sure that the Statewide Office of Equity is funded and the accountability measures are put back in place.
How will you address the role of government and taxes during your campaign and address this issue in the legislature should you be elected? Specifically, are you supportive of tax code reform? Taxing capital gains in Washington state? And funding the state's Working Families Tax Credit?	I am the newest member of the Appropriations committee. I will use my role to support tax code reform that moves us towards a more fair, just and a non-regressive tax structure. Yes. I support the Capital gains tax and WFTC.
Please describe policies and investments you would support to improve farm worker rights and living conditions, if you are elected?	I will continue to fight for rights, protections and resources for the most vulnerable and undocumented workers in our State.
If elected, what will you do to alleviate hunger and poverty, and create economic opportunity for Washington state residents?	We aren't going to reduce poverty and hunger statistics with only charitable giving. Now is the time to look at our budgets line item by line item to decide how we spend our tax dollars in ways that will lift people out of poverty and if that doesn't work then we will need to look at our revenue structure and remodel it in a way that does.
